BGS INSTITUTE OF TECHNOLOGY
Department of Civil Engineering

CO-PO & CO-PSO Mapping (18 Scheme)

Programme	Course Code	Course Name	Credits	L-T-P	Assessment		Exam Duration
					SEE	CIE	
B.E	18C213	Concrete Technology	3	3-0-0	60	40	3Hrs

CO's

18C213.1	Knowledge of the ingredients of good concrete.
18C213.2	Ability to analyses the properties of fresh concrete.
18C213.3	Evaluate hardened properties of concrete.
18C213.4	Illustrate proportioning of different types of concrete mixes for required fresh and hardened properties using professional codes.

PSO's

PSO-1: Graduates will be able to analyze, design and execute the civil engineering structures effectively for the sustainable development.

PSO-2: Graduates will acquire critical thinking abilities and technical skills for the usage of modern tools in development of civil engineering structures.

PSO-3: Graduates will be able to get opportunities for their professional growth, demonstrate communication and aptitude skills to face the challenges and needs of our society.
